During the **1925** Legislative session some talk was started regarding the formation of a State Patrol organization in the State of Minnesota. No bill was introduced during this session of the Legislature.

During the **1927** Legislative session, however, a bill was presented to create a State Highway Patrol organization. This met with a lot of opposition from certain organizations and the bill did not pass.

The **1929** Legislature passed a bill creating a Highway Patrol. The bill placed the organization under the Minnesota Highway Department and authorized the Commissioner of Highways to employ not exceeding 35 men with pay not to exceed \$150.00 per month.
